**Address:**

1a Ocean Street, Kogarah, Sydney, NSW, 2217

## Summary

I am a junior developer with a passion for design, coding and software development. I graduated from Coder Academy with a diverse skill set and a strong academic record. I am eager to apply my knowledge and creativity to the industry and learn from experienced professionals.

---

## Key Projects

### Eshop

This was one of the main projects at \_Nology, A full stack web store application with a React Front end and a Google Firestore Back End

Live website: <https://singular-dasik-6c663a.netlify.app/>

### Seagull!

Seagull is a 3D endless runner/arcade style game I built as a hobby project to learn the unity engine, C#, 3D modelling and animation. Currently can be found on my github account.

### Miguellitto's Pizzeria

This was the Final Project from My Coder Academy Bootcamp, with a fully realised CRUD front end and backend - The Backend was built in Ruby on Rails, and the Front end was built in React.

---

## Tech Skills

### Languages

- HTML
- CSS/SASS
- Ruby
- Java Script
- C#
- PHP
- Java
- Python

### Software

- Unity
- Blender
- Rails
- Github
- NodeJS
- React
- Spring
- NestJS
- NextJS

## Key Skills

- Full stack web development
- 3D modelling and animation
- Web Development
- Research
- JS React
- Agile software development
- Bootstrap

### Address:

1a Ocean Street, Kogarah, Sydney, NSW, 2217

## Employment History

### Software Development Intern - \_Nology

- Gained experience in web development skills and tech stacks, including Java, Spring, React, NestJS, and NextJS.
- Contributed to the development of \_Nology's learning management system by implementing the Backend CORS policy and Github integration.

### Machine Learning Intern - Ant61

- Assisted in the development of neural networks for robotics to be used in drones and space exploration.

### Election Official and Deputy Polling Place Manager

- Delivered exceptional customer service by effectively communicating with voters, addressing inquiries, and resolving issues promptly and professionally.
- Demonstrated strong relationship-building skills, resulting in increased customer loyalty and satisfaction.
- Proficient in using various customer service tools and software to ensure a seamless customer experience.

### Research Assistant - AIHSS

- Contributed to the development of a report on universal healthcare in Indonesia.

### Intern - World Health Organization Headquarters

- Supported the Secretariat for the International Health Regulations (2005) with preparation work for the International Health Regulations 2014 Review Committee and the Ebola Virus Disease Emergency Committee.

### Industrial Attachment - Kenya Institute of Medical Research

- Conducted laboratory research on tropical diseases, including malaria, HIV, and schistosomiasis, utilizing numerous laboratory techniques.

---

## Academic History

### Coder Academy

Fast track coding boot camp - Complete 2022

### Edith Cowan University

Graduate Diploma of Cybersecurity - Complete 2020

### University of Sydney

Masters of Political Economy - Complete 2018

### Australian National University

Masters of Strategic Studies - Complete 2012

### James Cook University

Bachelor of Science (Hons) - Complete 2010

---
